MSc program in Data Science has been developed
as a part of task 10 of the project
„NERW PW. Science - Education - Development - Cooperation”
co-funded by European Union from European Social Fund.

Project

P10.1 Competition for a community detection method [100%]

- You work in groups of one or two students.
- Each such group implements the selected community detection method.
- We will test every implementation with benchmark.

Thank you for your attention!
